

# GLICO / Glial communication symposium

18<sup>th</sup> Nantes University scientific days, May 27 2025

## Preliminary Program:

### Session 1 - Glial communication in pathophysiology

**9h Invited Keynote Lecture : Glial miRNA**

**Werend Boesmans (Hasselt, Be)**

9h45 Nantes University Lecture

Glial communication through EVs in brain tumors

Quentin Roux (SOAP, Nantes)

10h15 Nantes University Lecture

Glial "Enteric glia -T cell contact involvement in Crohn's disease recurrence"

Catherine Le berre (TENS, Nantes)

*10h45-11h15 coffee break and posters*

### Session 2 - The glio-vascular unit in health and disease

**11h15 Helene Castel (or anyone from her lab), Rouen**

12h Nantes University Lecture

Lais Briigliadori Fugio (SOAP, Nantes)

The properties of the brain endothelial cell in glioblastoma

### 12h30-13h: 3 selected flash talks (5min pres + 3 question)

*13h00 14h00 lunch and posters*

### 14h -14h45 Round Table: **How to study glia in 2024? Or "everything you always wanted to know about glia"**

Imaging + Cell models ?

Tony Durand and Simon Valles(TENS, Nantes)

### Session 3- Glial cells to design therapeutic strategies

**14h45 Invited Keynote Lecture : Enteric Glia as brain therapeutic strategy?**

**Carla Cirillo (Toulouse, France)**

15h30 Nantes University Lecture

"Enteric glia ....."

Valentine Mouille (TENS, Nantes)

**16h00 Invited closing Lecture**

**Pierre-Olivier Couraud? The BBB**

### **Organization Committee:**

Tony Durand (IE, Inserm UMR1235 TENS)

Julie Gavard (DR, Inserm U1307 CRCI2NA)

Malvyne Rolli-Derkinderen (DR, Inserm UMR1235 TENS)
